

Welcome! This 2nd edition of the AI4DI Newsletter presents you with our project's progress and event highlights. The AI4DI Newsletter will be published until the end of the project. Through our project's website, Twitter account, and this Newsletter, we will keep you informed about our project's results.

Upcoming Events

AI4DI at ECSEL Symposium 2020

June 24th 2020, online conference

AI4DI Consortium members will join the annual ECSEL JU Symposium, which will take place online and focus on key digital technologies enabling European economic recovery.

Some of the most urgent issues and questions will be discussed, such as:

- How can instruments like ECSEL JU speed up socio-economic recovery and strengthen the EU's digital sovereignty?
- What are the new opportunities created by digital industries for the short and mid-term?
- What level of investment and strategic global alliances for RD&I should the EU contemplate?
- How to mobilize the required financial resources supporting national and European policy measures in Key Digital Technologies?

AI4DI 1st Review Meeting

July 8th – 10th 2020, online meeting

AI4DI consortium members will meet online for the 1st annual review meeting. Partners will use this event as an excellent opportunity to discuss the achievements of the Supply Chains, the status of the deliverables, and the plans for the 2nd year of AI4DI.

The event will start with presentations about market and impact of the AI4DI project, the future of the digitalization, and outcomes of the AI4DI Symposium Bologna. Afterwards, all work packages of the consortium will be presented. Last but not least, Supply Chain elevator pitches and demonstrator videos will be shown.
